

Assignment for a SDR Candidates at ClarityQ

1. Approach to Building a Pipeline (2-3 sentences):

- Present your approach to developing a pipeline, considering the unique challenges faced by product decision-makers in SaaS and app companies.

2. Target Companies:

- Provide a list of 5 companies you would target based on your understanding of our Ideal Customer Profile (ICP) and explain why you chose them (what are the specific needs/business case of these potential customers in utilizing ClarityQ's AI-powered analytics)

3. Profile Selection:

- Choose one of the top targets and discuss the specific profiles/personas you would aim for, link their LinkedIn profile and explain your rationale of choosing them (aim for 2 to 3 profiles). "Bonus": try to find their email address.

4. Prospect Email:

Choose one of the personas you mentioned and:

- Write a first intro email to this person
- Assuming you haven't received any response for X days (what is X In your opinion?): phrase a followup email.
- You've received a rejection email from this prospect. What would be your next steps?

We look forward to reviewing your assignment! If you have any questions, feel free to reach out via whatsapp/phone/email.
